Contractors All Risks Enquiry Form (continued)

A plant inventory must be included for all owned items except category 4. If any section is left blank than that category of plant will be excluded. We must therefore be informed immediately if any item is purchased for an excluded category in order for cover to be extended.

Plant Security: Please provide full details of plant fitted with any security devices and/or member of any plant registration schemes i.e. CESAR, TER on in the security box on the Own Plant Schedule. This allows Insurers to give improved terms, including reduced premiums and nil excesses.

Attachments: Please ensure that all attachments are included within the values of the appropriate plant type. If not included, they will not be covered under the insurance policy.

Own Plant Schedule									
Make	Model & Type	Registration Number	Year	Road Risks Required	State Security Fitted	Serial Number	New Replacement Value	Current Market Value	

Please Note that should the Schedule change mid term, we must be advised in order for cover to be amended to the correct basis.
